RUTLAND SCREEN PRINTING INK COLORS

Ready for Use Colors

Rutland low cure inks are non-phthalate ready-for-use color inks comprised of two barriers, one white ink, one black ink and 28 brilliant colors. The inks are available in two series: EH high opacity and EL low bleed.

M3 Color Mixing System

The Rutland M3 non-phthalate finished ink color mixing system is a collection of Pantone®-listed colors used to create custom formulations. This versatile ink mixing system is ideal for color matching and new color development.

C3 Color Boosting Mixing System

The Rutland non-phthalate color booster mixing system consists of single pigment color concentrates that were developed as a means of enhancing finished ink mixing primaries to offer a darker, more saturated color.
